

Auto-270 OBD Tracker

GPS Tracker Getting Started Guide

IMPORTANT: You must activate your tracker to get started! Go to logistimatics.com/activate

1

Installing your tracker

The Auto-270 tracker gets its power from the car's OBD port. To get started, simply plug the tracker into the port. This is usually underneath the steering wheel or by the floorboard on the driver's side.

2

Activate your tracker

To activate your tracker and get started, go to logistimatics.com/activate

There is a one-time activation fee and no monthly fees.

3

Download the tracking app

Download the mobile app from the App Store or Play Store by searching for "logistimatics". You can also track from any web browser at gps.logistimatics.com

4

Login with email and password

Login to the app with your email address and the password you used when you checked out.

Tracker Placement

The tracker can be plugged directly into the OBD port or an OBD extension cable can be used. If the extension cable is used, it can be routed to a less conspicuous location.

Setting up alerts

To be notified if your tracker enters or exits an area, create a geofence. In the mobile app, click Geofences > New Geofence. Give your new geofence a name, address and size.

Troubleshooting

If you have a question or problem, we can help. Learn more about your tracker's features, watch tutorial videos and ask questions at logistimatics.com/contact

OBD Extension Cable

You can purchase an OBD extension cable at logistimatics.com/product/obd-cable

IMPORTANT: You must activate your tracker to get started! Go to logistimatics.com/activate
